Recommendations (optional): In this section, provide recommendations, related to controls and/or compliance needs, that your IT manager could communicate to stakeholders to reduce risks to assets and improve Botium Toys' security posture.

Botium needs multiple controls implemented to improve its security posture and to ensure confidentiality of sensitive information or PII. controls such as principle of least privilege, disaster recovery plans, data backup, an IDS, encryption, password management, separation of duties and legacy system management.

To address gaps in terms of compliance Botium Toys needs to implement controls such as Least Privilege, separation of duties, and encryption. The company also needs to properly classify assets, to identify additional controls that may need to be implemented to improve their security posture and better protect sensitive information.
